

## **WDM1141**

### **Mockups 1 Assignment**

For this assignment, use Photoshop or Illustrator to create a mockup of the homepage for your final project. Layout and content organization are the most important components of your design at this point, so make sure to include valid content, labels and titles on your page, as well as ideas for textual graphic design.

#### **Design Requirements**

Visual representation of homepage organization and layout  
Indicates placement, content and layout of navigation menus  
Indicates sizing and placement of header items  
Indicates sizing and placement of graphical text  
Includes sample content from site  
Designed for desktop/laptop computer screens (960 x 640+)

#### **Technical Requirements**

Save as .jpg or .png  
Save at standard screen resolution (72 dpi)  
Save as “firstinitiallastname\_mockup1”  
Upload by due date to folder indicated in class by your instructor
